About This Game

Civil War 2 is the definitive grand strategy game of the period. It is a turn based regional game with an emphasis on playability and historical accuracy. It is built on the renowned AGE game engine, with a modern and intuitive interface that makes it easy to learn yet hard to master.

This historical operational strategy game with a simultaneous turn-based engine (WEGO system) that places players at the head of the USA or CSA during the American Civil War (1861-1865).

You take the part of the military and political leadership, trying to lead your nation to victory, in the midst of some of the toughest operations of the Civil War. You will build, organize and command your armies over one of the largest maps of the USA ever made for a Civil War game. There are a host of real military leaders to appoint with their own strengths and weaknesses and choosing the right man for the job is crucial. However you are not just a military leader and must make vital economics and political decisions. These can have far reaching effects and you can even influence foreign intervention from the French & British who were constantly intervening in America for power and prestige.

Each turn lasts 2 weeks and you must issue your orders in advance, planning on where the enemy will be, not where they are now – which is called a WEGO system (We Go at the same time). Orders are executed simultaneously in 14 phases – 1 per day. Battles are resolved on the day they occur so scheduling the arrival of your forces and planning the logistics or your army are key to success. You can send a massive force to assault an enemy position but if you do not carefully plan the attack you can have you troops arriving piecemeal and being easily dispatched. The WEGO system adds excitement and suspense and is far more realistic than traditional turn based games.

This is must have game for anyone interested in the period or grand strategy games in general.

Features

- Setting: the game covers all of the USA, from the Eastern seaboard to the Rockies, from 1861 to 1865. Mexico and the Northern Caribbean are also in

- Game map is divided into more than 3,000 regions, with a variety of terrain, climates and development level.

Probably one of my favorite games ever. Really an excellent strategy game, especially if you're at all interested in the time period.. I still play this game, I just picked it back up after it sitting alone for a while. Honestly, this really only is for those who go on alternate history forums, own civil war figurines or you have become so good at HOI4 that it's not fun anymore. every time this game offers a new and exciting campaign. The best!
